Government Women's College,
Thiruvananthapuram

Presenters

...major processes of precursor of growth, the reforms in India's fiscal discipline has envisaged sweeping changes in planning, taxation, investment and growth to curb subsidies, broaden tax base, and carry out disinvestment policies since the era of liberalisation. The fiscal ambiguities succeeding the introduction of GST and demonetisation pave the way for discussing their implications on the Indian economy and the rhythm of fiscal federalism. The virtuous aims of GST warmly called 'unified tax all over India' have been overturned by the inflated price indices and this fact is perplexing our citizens and the states. In this context, one thinks, why the price of essential commodities shoots up, why the state the saviour and the market together squeezes the citizen?..... Whether the wrong punctuations in the policy dialogue have victimized the current growth indices, jeopardised investment climate and fiscal health of the country? The economic activism of the state is under question and the platform is set for discussing the veracity of fiscal policy in the current scenario. Research & PG Department of Economics of our college proposes to provide a platform for discussing various facets of fiscal policy in the state sponsored National Seminar at Panampilly Memorial Government College, Chalakkudy, Thrissur, Kerala from 6th to 7th December 2017.
